

STAIN-PROOF Plus™ PREMIUM IMPREGNATING SEALER

STAIN-PROOF Plus™ is an impregnating, invisible and breathable sealer that protects granite countertops from damage caused by water and oil-based stains. Treated countertop surfaces become easier to clean, maintain, and keep looking good for longer. STAIN-PROOF Plus™ provides lasting protection for natural stone that comes with a 25 year warranty.

Typical applications:

STAIN-PROOF Plus™ is suitable for natural stone countertops.

Benefits:

STAIN-PROOF Plus™ is:

- Able to repel stains, graffiti and food products, making cleaning easier
- Non film-forming
- Works without changing the appearance of the surface – keeping the original look of the stone
- Suitable for indoor and outdoor use
- Very alkali resistant
- Permanent premium oil and water repellence. 25-year written performance warranty when applied by a Dry-Treat Accredited Applicator

Unlike a temporary sealer, STAIN-PROOF Plus™ is a one-time application applied by Stone Crafters. It lasts for 25 years without the need for constant resealing.

It is important to note that no sealer is impervious to staining or etching. Therefore, spills should be wiped up in a timely manner. It is very important to follow the cleaning instructions and only use the recommended cleaning products on granite tops. Marble, quartzite and limestone are especially subject to etching. STAIN-PROOF Plus™ does not prevent etching.

Stone Crafters, LLC fully supports and stands behind the warranty presented by STAIN-PROOF Plus™ as their agent and applicator.
